*"Immersed in
nature's classroom,
we reconnect you
with the Earth."*

SPRING/SUMMER 2007 PROGRAMS

Call or email for details!

Weekly homeschool programs: EarthWork offers weekly, full-day nature awareness programs in which we mentor 7- to 12-year olds in learning tracking, earth awareness and skills for living on the landscape.

Monthly programs: For families unable to commit to a full day per week, we offer monthly day-long and afterschool programs for children from age four through the teen years. All use a mentoring approach to teach a deep awareness for and love of the natural world.

Workshops and family programs: We offer periodic workshops for adults and families in topics ranging from acorn preparation to snowshoe-making to tracking skills. Call us for current offerings!

New! Wilderness Skills Weekend for Adults: Fire-by-friction, shelters, coal burning, wild edibles...

Summer Camp: At Home in the Woods. For children ages 8-12, we offer quality mentoring in an array of hands-on activities including animal tracking, wildcrafting of pottery and stone tools, matchless fire-making, primitive toys and games, wild edibles, and bird language.

Native Ways: 'The museum that comes to you.' We offer customized programs for schools and institutions which bring a living, hands-on, earth skills-based village to your site. Aligned with the MA State Frameworks.

EarthWork Programs' vision is to offer people experiences in nature that will introduce them to a new awareness of themselves and the natural world around them. We achieve this by immersing people in nature through Adventure Experiences, Wilderness Living Skills, Nature Awareness, Tracking, Communication and Community Building Skills, with Native teachings from Elders around the world. It is our hope that these experiences act as a reminder of how beautiful and sacred nature is and how good it feels to be connected to it and to the people around us.
